

MUHAMMAD ASAD KAMAL SHAH

Full-Stack Developer | React.js | Node.js | MERN

kamalasad57@gmail.com | +92 305 1958933 | Islamabad, Pakistan

[LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Full-Stack Developer with hands-on professional experience designing, developing, and maintaining scalable web applications using React.js, Node.js, Express.js, JavaScript, MySQL, and MongoDB. Experienced in building responsive interfaces, RESTful APIs, secure JWT authentication, role-based access control, database-driven applications, payment integrations, email services, and real-time communication. Contributed to enterprise applications including TrueNorth, EliteSnooker, CueMetrics, Recruiter, WatMachinery, and MatchXpert, with strong experience in backend architecture, API integration, database design, debugging, and performance optimization.

PROFESSIONAL EXPERIENCE

Full Stack Developer | MRA Developers

Feb 2025 – Present | G-10/1, Islamabad, Pakistan | Career Progression: Full Stack Developer Intern → Full Stack Developer

Technologies: React.js, Node.js, Express.js, MySQL, MongoDB, Sequelize, REST APIs, JWT, WebSockets, Tailwind CSS, Material UI, Git

- Developed and maintained scalable full-stack web applications using React.js, Node.js, Express.js, MongoDB, and MySQL.
- Built RESTful APIs for authentication, user management, business workflows, data processing, and application services.
- Implemented secure JWT-based authentication and role-based access control for enterprise applications.
- Created responsive and reusable frontend components using React.js, Tailwind CSS, and Material UI.
- Integrated third-party services including Authorize.net payment gateway, email services, WebSockets, and external APIs.
- Optimized relational and NoSQL database structures using MySQL, MongoDB, and Sequelize ORM.
- Collaborated with cross-functional teams to ship new features, resolve production issues, and improve application performance across enterprise applications including TrueNorth, EliteSnooker, CueMetrics, Recruiter, WatMachinery, and MatchXpert.

EDUCATION

BS Software Engineering CGPA: 3.38

University of Mianwali | Oct 2021 – May 2025 | Mianwali, Pakistan

TECHNICAL SKILLS

Programming Languages: JavaScript, SQL

Frontend Development: React.js, HTML5, CSS3, Tailwind CSS, Material UI

Backend Development: Node.js, Express.js, REST APIs, WebSockets

Databases: MySQL, MongoDB

ORM / Database Tools: Sequelize ORM

Authentication & Security: JWT, Role-Based Access Control

Third-Party Integrations: Authorize.net, SendGrid, OpenAI API, Nodemailer

Development Tools: Git, GitHub, VS Code, Postman

Other: Responsive Web Design, API Integration, Database Design, Debugging, Performance Optimization, Problem Solving

PROJECTS

TrueNorth – Debt Relief & Settlement Platform

Role: Full-Stack Developer (Sole Developer) | React.js • Node.js • Express.js • MySQL • Sequelize • Authorize.net • SendGrid • JWT

Developed a full-stack platform for a debt relief service supporting bank negotiation, structured repayment plans, and credit card and loan settlement, using React.js, Node.js, Express.js, and MySQL. Designed the database schema with Sequelize ORM, implemented JWT-based authentication, integrated Authorize.net for payment processing, and used SendGrid to send transactional emails and campaigns with webhook synchronization to keep payment and settlement records in sync.

EliteSnooker – Snooker League Management Platform

Role: Frontend Developer & API Integration | React.js • Node.js • Express.js • MySQL • Sequelize • JWT • Tailwind CSS

Built a full-stack platform for an amateur snooker league using React.js, Node.js, Express.js, and MySQL. Implemented 24/7 online table and slot booking, a stat engine tracking lifetime metrics such as highest breaks, frame win/loss ratios, and head-to-head records, and support for divisional leagues and tournaments, with JWT authentication and a Tailwind CSS interface for players and administrators.

MatchXpert – AI-Powered Resume Optimization & Job-Matching Platform

Role: Frontend Developer & API Integration | React.js • Node.js • Express.js • MySQL • OpenAI API • JWT

Developed a full-stack platform that helps job seekers tailor applications for ATS systems, using React.js, Node.js, Express.js, and MySQL. Built the ATS-friendly resume builder and centralized user profile system, and integrated the OpenAI API to parse uploaded resumes into structured profile data and to analyze a resume against a target job description, generating strengths, weaknesses, and tailored rewrite suggestions as part of a credit-based paid usage system. Implemented JWT-based authentication.

FREELANCE PROJECTS

PhantomProducts – E-Commerce Product Landing Page

Role: Frontend Developer | React.js • Vite • Tailwind CSS

Built a responsive e-commerce landing page for an athletic footwear product line, featuring mega-menu navigation, a hero campaign banner, and a categorized product catalog grid, as a freelance frontend engagement.

SCSM – Smart Complaint Management System

Role: Full-Stack Developer | React.js • Node.js • Express.js • MongoDB • Socket.IO • Python FastAPI

Delivered a full-stack, AI-assisted civic complaint system with citizen, staff, and admin dashboards, real-time tracking via Socket.IO, and a FastAPI ML microservice for category classification and duplicate detection, as a freelance engagement.
